

In the name of God

Respectfully, I would like to present a summary of my personal and professional resume.

I am Maryam Sheikh Purkhani

I was born in Mashhad to a religious and cultural family and grew up in Kerman. My origin is Kermani.

Before I accepted the doctorate: I spent my life, work and education in Kerman. In this case, I successfully completed a bachelor's degree in nursing at Kerman University of Medical Sciences, Razi School of Nursing. The cultural propaganda activities started from 17th of May, 1376, until 25th of April, 1377, I became an ordinary member of the student mobilization and after that, from 26th of April, 1377 to 22nd of March, 1378, I activated the active mobilization of the student body. In order to complete the part of the expertise, I underwent treatment services at the CCU Kerman Hospital. And after the completion of the design period, at the same time I served in two hospitals, Razia Feroz Kerman and Khoudad Mehrabi Kerman Surgery Hospital (mainly eye surgery) as a nurse contractor, but of course I was active as a nurse at Khudadad Mehrabi Hospital as a training supervisor In that hospital. The experience I gained from working in Hospital was the groundwork for my teaching at the EKG Interpretation Workshop at the Kerman Community Hospital and the Cardiology Revitalization Center at the Imam Ali Hospital in Zabul. At the same time, I served in two hospitals, Razia Firoz and Khudadad Mehrabi: Internal and Surgical Studies at the University of Kerman Medical College: I graduated from the Kerman Medical University with the title of "Nursing Documentation". In addition to these two articles at the end of the correspondence with the headline "Communication between knowledge and the practice of nurses working in the hospitals of Kerman University of Medical Sciences on the principles of nursing reporting" The Faculty of Nursing and Universities of the Iranian University of Medical Sciences (Nursing

Publication) and a book entitled "Reporting on Nursing with Emphasis on Basic Principles" published by Tahfa (Humanities) Publications. Experience gained from the end of the period of teaching in two training workshops in the field of Nursing in Shahid Beheshti Psychiatric Hospital, Kerman and 579 Army Hospital. At the same time, I am studying in the field of Masters Studies, in addition to work in hospitals (Razia Firoz and Khudad Mehrabi Hospitals) and in two universities, Kerman Medical University: Razi Nursing University and Azad Islamic Unit Kerman, I also teach in the form of teaching right. I also found out that I have received a Certificate of Appreciation from the University of Nursing. After completing my master's degree, I completed a term of study (autumn) and I became a teacher at the University of Zabul: University of Medical Sciences. Then, I was exhausted. Then, after attending a qualitative research workshop conducted in Kerman (Phenomenology), I conducted a research under the title "Experience of living children of Kerman children suffering from cancer" in the form of articles mentioned in the scientific publication. University of Nursing and Mama University of Medical Sciences and Medical Services of Martyr Beheshti Tehran. In addition to this discussion with the same title of the article in the second half of the general qualitative research in the health sciences that was held in Kerman. In addition, I have been teaching at the Azad Islamic Unit, Sirjan University for 8 years and a half as a member of the Academic Board. I also received valuable certificates from the university. At the same time, I was teaching at the Free Islamic Unit of Sirjan University. I studied all the time, in addition to studying for a doctorate, I also had the honor of teaching at this university. In addition, I also completed a period of academic programming, teaching, nurturing and Hamayeh Shahid Beheshti. Finally, in defense of his dissertation under the title "Compilation of Balini's Ways to Evolve Hope in Breast Cancer in Women" and published articles in the magazine International Journal of Cancer Management

Under the title:

Hope-Promoting Strategies: Perspectives of Iranian Women with Breast Cancer about the Role of Social Support

A speech at the 16th International Congress on Breast Cancer under the title:

Hope Promoting Factors in Women with Breast Cancer

Lecture at the Sixth National Congress of Nursing Ethics at the University of Medical Sciences

Explaining Perceptions of Iranian Women Suffering from Breast Cancer

I graduated from the doctorate of medical sciences, Shahid Beheshti. I have been cooperating with this faculty since 23rd September, 1398 in the teaching of Zarand Medical Sciences and I am proud to teach in Zarand Medical College as a Faculty member. During this period, I have introduced the faculty of research workshops including proposal writing, essay writing, research methods, end note, spss simple and advanced, information bases and ethics workshops.

And participated in several EDC workshops.

I hope God will give me more valuable experiences and more success in less and quality services
..... Amen
